

## Scar Gel

### Ingredient FACTS

**Active Ingredients:** Potassium Sorbate, Frankincense, Myrrh, Cedar Wood, Helichrysum, and Avocado or Hemp extracts

**Purpose:** Active Healing of abrasions, cuts, scars

### Use for the management of healing cuts, abrasions, surgical scars

#### WARNINGS

**For external use only.**

Do not use this medication if you have raw tissue – use the thermo-gel first.

**Ask a doctor or pharmacist before use if you are** using any other topical medications at the same time or immediately following use of this product. This may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor.

#### When using this product:

- Avoid contact with eyes. If contact occurs, rinse thoroughly with water.

**Uses:** Surgery Sites / Surgical Suture Lines, to avoid Keloid Scar Tissue Formation

**Skin Wounds:** If possible clean your hands and the affected skin surface with cooled boiled or sterile water. Remove all parts of the thorn or splinters if possible. Dry and apply a thin layer of HN Scar-Gel over the affected skin surface. Seek medical help if necessary. Re-apply every 3-4 hours after re-cleaning the affected surface. Cover with a dressing if possible. Seek medical help if necessary.

**Surgery Sites / Surgical Suture Lines:** Clean the suture line with cooled boiled or sterile water. Dry and apply a thin layer of HN Scar-Gel over the affected skin surface. Re-apply every 3-4 hours after re-cleaning the affected surface. There is no need to cover unless protection from further trauma is required, or work place health and safety regulations require wound coverage.

**Skin Surface Abrasions and Cuts:** Clean the affected skin surface with cooled boiled or sterile water. It is important if possible to remove all foreign bodies from the skin surface, such as gravel, small stones, sand, and dirt. Dry and apply a thin layer of HN Scar-Gel over the affected skin surface. Re-apply every 3-4 hours after re-cleaning the affected surface. There is no need to cover unless protection from further trauma is required, or work place health and safety regulations require wound coverage.

**Skin Ulceration:** Clean the ulcer site and surrounding area with cooled boiled or sterile water. Dry to a damp surface if possible and apply a thin layer of HN Scar-Gel over the ulcer site and surrounding skin edge. Re-apply every 3-4 hours after re-cleaning the affected area. There is no need to cover unless protection from further trauma is required, or work place health and safety regulations require wound coverage.
